**We envision a world where everyone reaches their potential with education.**

# A Message from CEO

Dear Supporters, Partners, and Friends,

As I reflect on the remarkable journey we've undertaken in 2024, I am filled with gratitude, for your steadfast support, shared belief in our mission, and collective commitment to transforming lives through education. This year, together, we reached new milestones: directly empowering more than **1.5 million learners!** We facilitated over **30 million learning sessions**, delivering more than **571,000 hours of meaningful learning**, a powerful testament to what's possible when innovation meets purpose.

## Innovating for Impact

At the heart of our progress is our GAIN framework, **Gamification, AI Coaching, Incentives, and Network**, which continues to revolutionize how we make learning accessible, engaging, and effective. In 2024, we introduced exciting new features on **edbot.ai**:

The **Dictionary** tool for instant word understanding

**Community In-App**, fostering peer-to-peer support

The popular **Shop**, where learners redeemed over **73 million learning points** for meaningful rewards like **workshops, CV reviews, and more**

These enhancements have driven unprecedented engagement and retention, reinforcing the impact of thoughtful, learner-centered design.

## Empowering Communities

Community lies at the core of Solve!. This year, we deepened our grassroots impact through initiatives like **Solve My English (SME)**, now supporting over **5,000 members in Indonesia**. In Malaysia, our **Speechmakers Program** helped students build confidence in English through structured practice and mentorship. Meanwhile, our **Ecopower** initiative empowered youth with disabilities through financial literacy and sustainable business education, underscoring our belief in inclusive, holistic learning.

## Local Heroes, Global Impact

Behind every number is a story of courage and growth. Like **Tania** from Nusa Tenggara Timur, who advanced from pre-intermediate to upper-intermediate English despite limited internet access, and now shares her knowledge with others in her community. Or **Akram** from Malaysia, who led a team in our global learning competition, brought his peers onto the platform, and secured an internship at a top education company, before graduating. These learners remind us that with the right tools and support, young people can overcome barriers and lead change.

## Looking Ahead

As we move into 2025, our mission to connect education with opportunity becomes even more urgent. Beyond language and foundational skills, we're expanding our focus to include **AI literacy, climate education**, and other **future-critical knowledge areas**, ensuring that youth are not only equipped to thrive today but also to lead tomorrow. With a growing network of over **3,000 partners and collaborators worldwide**, we are poised to scale our impact and reach even more learners, regardless of background or circumstance.

Thank you for walking this path with us, for believing in the power of education, and for being part of this global movement. Together, we are building a more inclusive, equitable, and sustainable future for all.

With gratitude,

**Janine Teo**  
CEO, Solve Education!

# Who We Are

Solve Education! is a tech-driven social enterprise and registered nonprofit organization that focuses on building a world where everyone reaches their potential with education. We empower individuals to thrive in the 21st century by mastering essential skills through an AI-powered learning platform, edbot.ai, amplified by dynamic enrichment programs that drive real-world success.

*In 2024, we witnessed the power of artificial intelligence and community converge to unlock learning opportunities for those who need them most. We remain committed to breaking down barriers to education and empowering learners to shape their own futures and improve their livelihood.*

**Talitha Amalia**  
Chief Operating Officer

# Solve Education's Unique Approach

At Solve Education!, we make learning fun and innovative. At the core is edbot.ai, our AI chatbot that delivers accessible, gamified learning programs through a website, using our **GAIN Framework**.

# Our Work in Digital Equity

We recognize that while our GAIN framework drives innovation and engagement, the first step is ensuring access to learning tools and digital literacy. Without these, we can't unlock the potential of our technology.

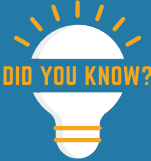

**Saphira Anjani Suwanto**  
Head of Partnership

I'm incredibly proud of the milestones we've achieved in 2024: reaching over 1 million learners, forging new partnerships, launching our community feature, and many more! With all of our exciting plans in 2025, I'm super excited to see how our platform will evolve and how we can continue to enrich the learning journey for all our learners!

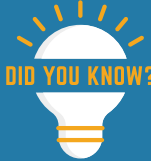

## To unlock the full potential of GAIN, we first lay the foundation:

### ✓ Training for Teachers and Learners

Our star teacher from SMK Jalan Bukit Malaysia engages over 700 learners monthly!

### ✓ Community-Driven Learning Model

Learners in the community engage 9 minutes longer per session and have 2.9 times more sessions on average!

# OUR TECHNOLOGY

# Edbot.ai

Edbot.ai is an interactive chatbot, accessible via a website, that helps beneficiaries learn in a fun and interactive way.

Our most dedicated learner in 2024 completed **61,779** questions in Ed!

## Value Proposition

### Gamification

We turn learning into play by integrating game mechanics like points, challenges, and leaderboards.

### Incentives

Edbot.ai rewards learning effort with incentives such as data vouchers, workshops, and merchandises!

### AI Coach

Our smart coach Ed, adapts content to each learner's skill level, pace, and interests!

### Network

Edbot.ai builds vibrant networks of learners, ambassadors, educators, and partners who inspire and support each other.

# New Features Released in 2024

## Dictionary

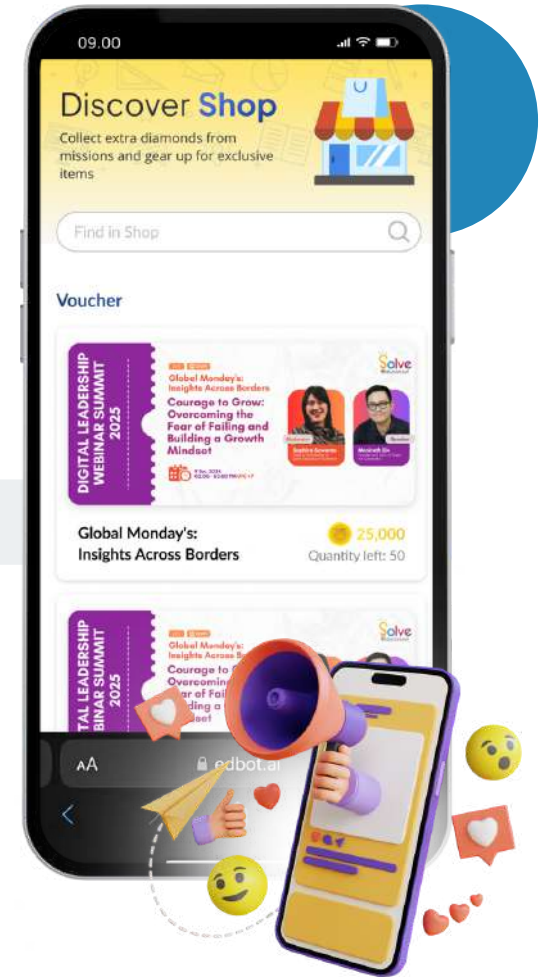

The new Dictionary Feature enhances learning by providing instant definitions, explanations, and usage of key terms. It's integrated into our courses, supporting users in grasping complex concepts easily!

 **Fun fact:** Over **395,000 learners** have used the dictionary since its release in May!

## Shop

The Shop Feature adds a gamified rewards system, letting users redeem learning points and diamonds for exclusive perks like avatars, merchandise, and workshop tickets!

 **Fun fact:** More than **73 million learning points** have been redeemed in 2024 in the edbot.ai shop!

# New Feature Released in 2024

## English Skill Check

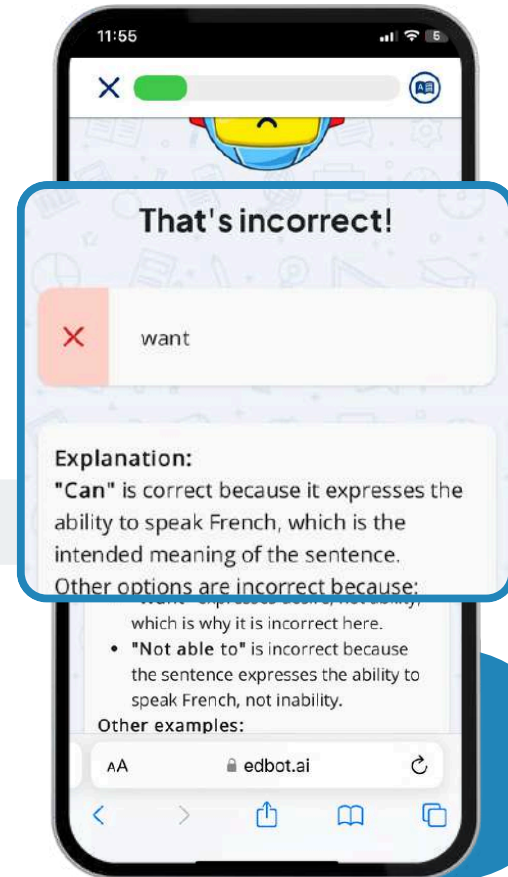

Edbot.ai's English Skill Check assesses users' proficiency in English, allowing Ed to customise learning pathways and provide a personalised learning experience.

**Fun fact:** Around 10% of learners took the test and most of them landed at the **lower intermediate** level!

## Feedback System

The enhanced Feedback System provides detailed insights into performance, highlighting correct and incorrect answers with clear explanations to help learners improve and build their confidence.

**Fun fact:** Over 90% of surveyed learners agreed that the feedback system made their learning **clearer!**

# New Feature Released in 2024

## Community In-App

The Community feature transforms Edbot.ai into a social hub, promoting collaboration, discussions, and group activities that foster belonging and mutual support.

**Fun fact:** One learner had left **175 comments** in the community!

This feature is designed to motivate students to learn consistently every day, with rewards given each time they reach a streak milestone!

**Fun fact:** Since its release in November, the longest kept streak is a **68-day streak**, impressive dedication!

# New Courses Released in 2024

## Ecopower

Ecopower focused on financial literacy, sustainable business practices, and the circular economy. It is specially designed to be disability-friendly and accessible to all.

Developed by Solve Education! in collaboration with Allianz, the course is supported by Allianz Global.

## Belajar Cara Belajar (Learning How To Learn)

The course includes easily accessible learning videos that offer practical strategies for mastering new skills, based on cognitive psychology and neuroscience.

Officially licensed from the best selling course on Coarsera: Learning How to Learn by Prof. Barbara Oakley.

**>3000**  
Total Collaborators &  
Partners

## Muhammad Lutfi

Head of Product

As Head of Product at Solve Education, I am immensely grateful for the remarkable achievements we've accomplished this year. Our team has made significant strides in enhancing edbot.ai, making it more inclusive and accessible to diverse learners worldwide. We've successfully launched a range of innovative courses and harnessed the power of artificial intelligence to enrich and personalize the learning experience for our students.

These milestones are a testament to the collaborative spirit and unwavering dedication of our exceptional team, whose hard work and creativity drive our mission forward. I am deeply thankful for their commitment. Equally, we celebrate the inspiring growth of our learners, who have embraced our products and reaped tremendous benefits from them. Their success fuels our passion to continue innovating and empowering education for all.

# COUNTRY HIGHLIGHTS

# Indonesia

In 2024, Solve Education! Expanded access to quality education in Indonesia through English learning courses and enhanced features on edbot.ai. The Solve My English (SME) community, established this year, grew to over 5,000 members, while the Youth Ambassador Program empowered young leaders to inspire their peers. We also launched Ecopower, a youth empowerment program focused on financial literacy, sustainable business, and the circular economy. Innovations like the Community In-App feature keep learners connected and motivated, reinforcing our mission to make education in Indonesia more inclusive, accessible, and impactful.

**>1,000,000**  
Beneficiaries

## Funfact:

In 2024, over **160 new communities** in Indonesia have started using Edbot.ai as their learning companion!

**99.06%**  
Improved learners

\*All data collected by the end of 2024

## Testimonials

**Triyana**

**Community Ambassador of Solve Education!**

I believe Solve Education! is more than just a place to learn—it's a space to grow together. I've followed the development of edbot.ai from the early days to how eye-catching it looks now. I really love the features; learning, chatting, and exchanging ideas all feel so much more natural.

**Liana**

**Beneficiaries from Solve My English Community**

I find the programs organized by Solve Education! very engaging. They include webinars on current and trending topics like AI, as well as self-development workshops such as CV building and public speaking. There's also Global Monday, which I always look forward to because each session features interesting and relevant themes.

# Malaysia

In 2024, Solve Education launched impactful English and STEM programs across Malaysia, including the first-ever national-level English Treasure Hunt with Lenovo in collaboration with JPN WP Kuala Lumpur, engaging over 120 schools and empowering special needs students with strong volunteer support. We were appointed as a digital partner by Rakan Muda and formed strategic collaborations with key institutions like Polytechnics and the Department of Education. As a result, major corporations have shown strong interest, recognising the significant impact on students' learning nationwide.

**>40,000**  
Beneficiaries

## Funfact:

A student from Malaysia spent an impressive **1,056 hours** learning on **Edbot.ai!**

**99.51%**  
Improved learners

\*All data collected by the end of 2024

## Testimonials

### Aiman

SMK Jalan Bukit Edbot.ai Ambassador

As a student, finding effective study methods can be challenging, but Edbot.ai has completely transformed my learning experience! The platform's AI-driven features create personalized study plans that catered to my individual needs, making it so much easier to grasp those tricky topics. It's like having a personal study coach right at my fingertips!

### Puan Latifah

Special Needs Teacher from SMK Yaacob Latif

The students in the PPKI class are usually quite passive in English, but when interacting with the laptops, they were genuinely excited. During the 2-hour Edbot session, they were eager to participate because they could relate to the speaking and listening activities. Today, as we focused on learning English, they were all very enthusiastic. This is truly a great teaching and learning tool that engages them effectively.

Thank you to Solve Education! and JPN Kuala Lumpur for introducing Edbot to our students. It has made a significant difference in their learning experience.

# Nigeria

In 2024, Solve Education! continued to strengthen community development in Northern Nigeria by expanding its operations to additional key educational institutions. Building on the progress achieved in 2023, the organization remained committed to empowering youths through learning competitions, utilizing the learning bot to cultivate critical soft skills. This sustained emphasis on skill-building not only prepares young individuals for successful professional careers but also establishes a solid foundation for lifelong achievement and contribution to their communities.

**>200,000**  
Beneficiaries

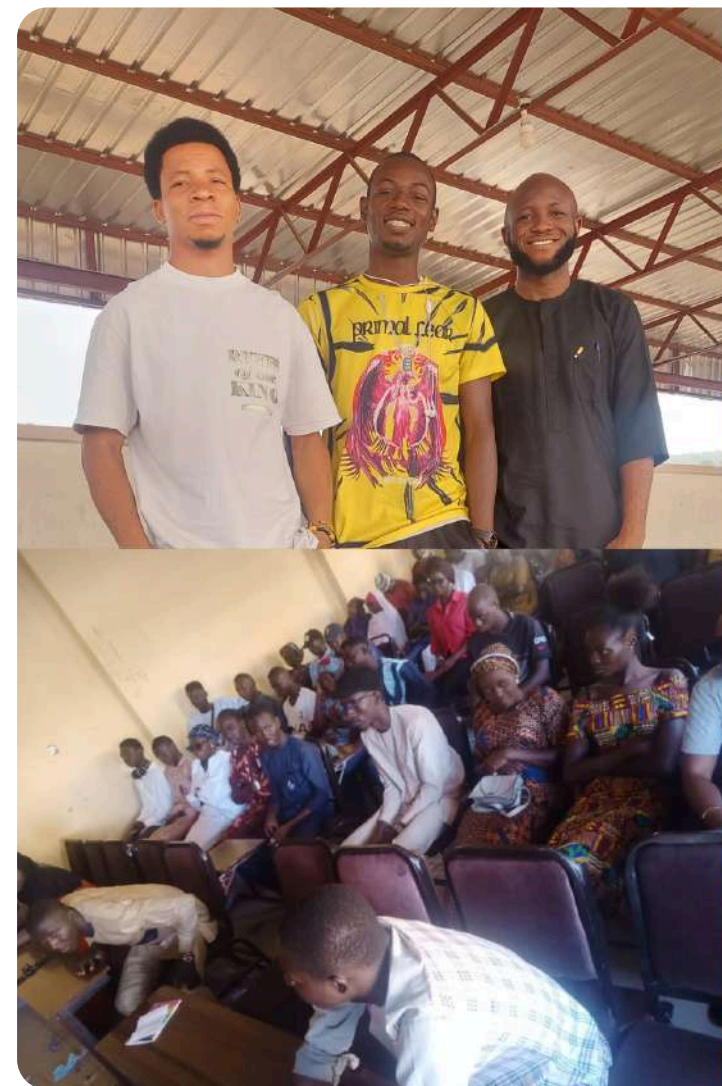

## Funfact:

Nigerian learners  
have completed over  
**5 million learning  
attempts in 2024!**

**99.11%**  
Improved  
learners

\*All data collected by the end of 2024

## Testimonials

### **Mbah Precious Ngozika**

**Community Ambassador of Solve Education!**

I am a beneficiary of the Solve Education! platform. It has blessed my life in every way. Educationally, I moved from being a below-standard vocabulary student to an above-standard vocabulary student. The lessons and everything on the platform have truly blessed my life.

### **Yusuf Amos Enyojo**

**Community Ambassador of Solve Education!**

I would like to express my appreciation to Solve Education! In the beginning, I had some difficulty with speaking and expressing myself. But after joining Solve Education!'s platform and starting to learn, I was able to improve my speaking and reading skills. Now, in fact, I feel very confident. Thank you, Solve Education!

# Singapore

In 2024, Solve Education! launched the “Mission I’m-Possible” program in Singapore, aimed at boosting Mathematics and English proficiency through gamified learning. In partnership with Yayasan Mendaki, with whom we’ve collaborated for many years, the program made math more engaging and helped students build confidence in their skills. This initiative reinforced our belief that meaningful impact is achieved through strong, purposeful collaboration!

**>4,000**  
Beneficiaries

## Funfact:

In just **two weeks** of a learning challenge, learners in Singapore can attempt more than **55,000 questions!**

**99.24%**  
Improved learners

\*All data collected by the end of 2024

## Testimonials

### Haqem & Bula

Students from Yayasan Mendaki

We're happy and enjoying learning with Edbot.ai!

### Hafizh

Student from Yayasan Mendaki

I'm happy to learn with edbot.ai and want to learn more.

# Other Countries

In 2024, Solve Education! expanded its reach to countries including Thailand, India, Hong Kong, and Vietnam, running targeted education programs tailored to local needs. These initiatives, focused on improving access to quality learning in each region, reflect our commitment to empowering communities through education, regardless of location or circumstance.

\*All data collected by the end of 2024

**>50,000**  
Beneficiaries

**Funfact:**  
We have seen improvement in  
**95%** of our learners globally!

**Tri Samsul Rahman**  
Technical Team Lead

As we conclude 2024, we've surpassed our previous monthly learner records, engaging hundreds of thousands on our platform. This milestone underscores our mission to empower communities through education and stands as a key highlight in my role as Technical Lead. I'm confident our commitment to innovation and social impact will propel us to even greater achievements in the years ahead.

# Transforming Futures: A Learning Success Story

## From Remote Village to Remarkable Progress: Tania's English Learning Journey

In the remote village of Kewar, Nusa Tenggara Timur, 22-year-old Tania is making a difference through education. Despite the many challenges she faces, Tania is dedicated to improving her English and uplifting her community with the help of Solve Education!'s learning platform, edbot.ai. Not only is she a learner herself, but she is also teaching children in her neighbourhood as a Solve Education! ambassador. Her determination is truly remarkable!

Tania began using edbot.ai in June, eager to learn English despite the challenges of living in a remote location. She often faced unreliable internet and frequent power outages, which made studying difficult. On days when the connection was better, Tania would trek to nearby hills just to access the platform. Her perseverance is a powerful reminder that, with the right tools and support, learners can overcome substantial barriers.

Her hard work led to noticeable progress, allowing her to advance quickly in her learning journey, moving from pre-intermediate level to upper-intermediate level of English in record time. Tania frequently uses edbot.ai's dictionary feature to instantly translate unfamiliar words, which has been crucial in overcoming language barriers and building her confidence. Her rapid progress shows that even in challenging circumstances, dedication to learning can lead to remarkable achievements!

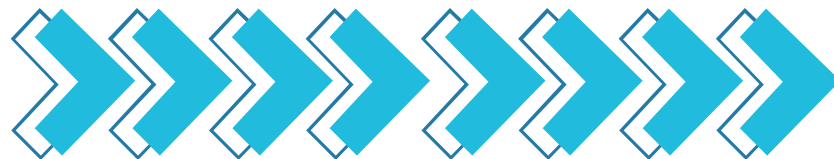

## Late-night Coder to Future STEM Leader, Muhammad Izz Akram

This is Akram, our Malaysian learner, an inspiring example of hard work and success in STEM. Starting as a curious 13-year-old at SMK Sultan Ismail, Malaysia, Akram quickly became the go-to expert among his friends, earning spots in various national and international competitions.

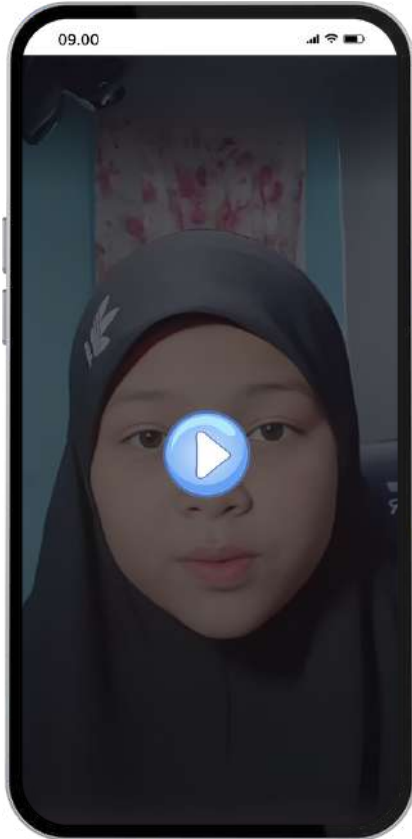

At Polytechnic Sultan Mizan Zainal Abidin, Akram pursued a diploma in IT and recognised the importance of mastering English and soft skills. When Shahfiq from Solve Education! introduced him to Ed the Learning Bot, Akram eagerly embraced Solve Education! Learning Challenge Season 4 in 2022. Leading his team to victory against 54 teams from countries like Indonesia, India, Nigeria, and Rwanda, Akram's dedication was recognised in Berita Harian, a Malaysian newspaper! Not only did he improve his English, but he also honed his public speaking skills.

As a result of his hard work and the support from Solve Education!, Akram secured an internship at Sasbadi Holdings Berhad, Malaysia's largest publishing company and LEGO Education products distributor. Today, he works full-time as a STEM Education Consultant Executive, even before attending his convocation ceremony. We are incredibly proud of Akram and grateful for our funders and partners who make such inspiring journeys possible. Together, we are shaping the future, one success story at a time!

# Other Testimonials

**Nurul Makiya**

Nusa Tenggara Barat, SME Community

“What I find most interesting about edbot.ai is how I can practice speaking and receive instant pronunciation feedback. The weekly challenges and missions presented through quizzes really motivate me to keep learning and improving. At the moment, my favorite topic is tenses, because the explanations are incredibly detailed whenever I get an answer wrong, it’s super helpful! The app is awesome. So far, my favorite feature is the **Courses** section, since my main goal is to improve my speaking and master tenses.”

**Zaenal**

Surabaya, Learner from a community in Indonesia

“Working as an engineer often takes me out of the city, even to other islands. Despite that, I always make time to study 3–5 times a week, depending on how busy I am. The point is learning with Edbot is fun. Thank you!”

**Fanny Aisyah Manurung**

North Sumatera, SME Community

I’ve had a great experience using Edbot. The app has a simple and easy-to-use interface. What I love the most is the AI chat feature—it really helps me practice grammar through text more easily

### **Azura Hamzah**

Co- Founder or Primaly, Private Education Centre in Malaysia

I have been introduced to a lot of English learning apps before, but I think edbot.ai is unique and more interesting than others because it has speaking and listening features. I will promote it to my students soon

### **Mr. Alex Shea Shoo Chin**

Executive Council of Entrepreneur Development, Cooperatives, and Consumer Affairs, Malacca State Government

"As a state known for its tourism industry, the Malay language is crucial as the national language, but English remains an essential medium for communication, especially for trade and interaction with tourists.

Earlier this year, I had the pleasure of receiving a courtesy visit from GPMS Ayer Keroh at Seri Negeri. The purpose of this visit was to introduce edbot.ai as an innovative system for learning English online. The app provides various features to enhance language skills, including speaking tests, listening tests, reading tests, and more.

For those interested, I encourage you to visit the website and give it a try. It's a great way to improve your English skills in an accessible and interactive way

### **Puan Natheerah binti Mesbah**

Principal of SMK Nilai Impian Malaysia

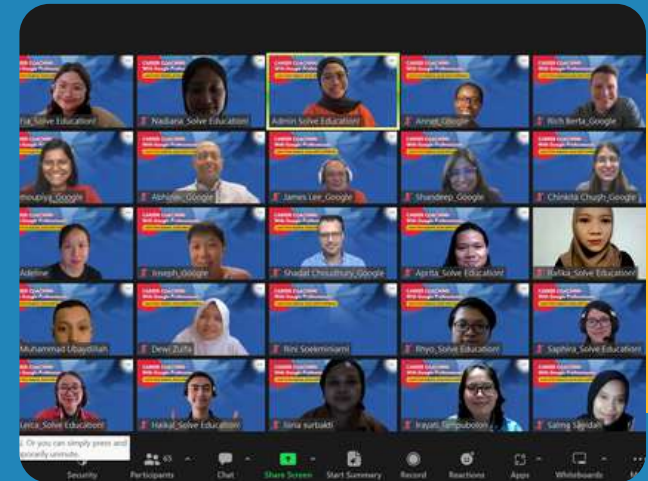

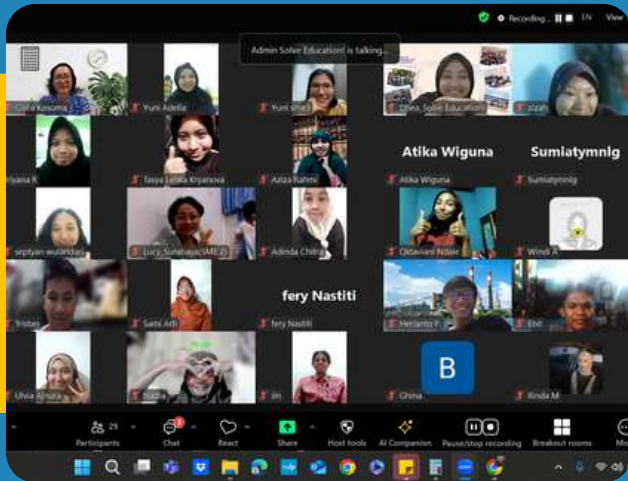

"Thank you to Solve Education! for selecting our school to participate in the Mathathon program, specifically for Form 5 students in Mathematics. My hope is that our students will be able to improve their academic performance, especially for the SPM examination, as this is the first batch of students at our school. We welcome this program with gratitude and joy, and we hope that this collaboration will continue in the future."

# PROJECT HIGHLIGHTS

# Solve My English (SME) Community

The Solve My English (SME) Community is a space where members learn and grow together through fun and interactive activities. Every week, SME runs practice sessions to help members boost their English speaking skills in a supportive environment!

## Fun fact:

Established in 2024, SME has grown into a community of over 5,000 members from all over Indonesia, with its own governing body!

# Speechmakers Program

The Speechmakers Program is an English-speaking practice initiative designed to empower Malaysian secondary school students with the confidence and skills to communicate effectively in English. The program is led by Solve Education! in collaboration with The Saujana Cares Foundation.

The initiative combines career readiness with English language fluency, encouraging students to speak up, build confidence, and engage in real-life scenarios!

## Fun fact:

Learning doesn't stop at edbot! The program also features structured workshops, group activities, and a digital learning component to make the experience even more fun and engaging!

# Ecopower

We partnered with Yayasan Allianz Peduli Indonesia to launch the Ecopower program, an initiative designed to educate young people about the circular economy and sustainable business practices. Launched in December 2024, the program is inclusive by design, with a special focus on ensuring accessibility for participants with disabilities, recognizing that everyone deserves the opportunity to contribute to and benefit from a more sustainable future.

Allianz Peduli | Solve Education

Link zoom dan pembagian kelompok akan diberikan melalui komunitas ecopower enrichment di edbot.ai

## Fun fact:

Ecopower empowers its participants through monthly webinars featuring professional speakers from the industry!

# Fun English

The Fun English program, in collaboration with Yayasan Allianz Peduli, aims to improve English skills for Indonesia's youth. With the theme "Adventure in English: Exploring the World Through Language," the program combines hybrid learning through the Edbot.ai platform and fun in-person activities!

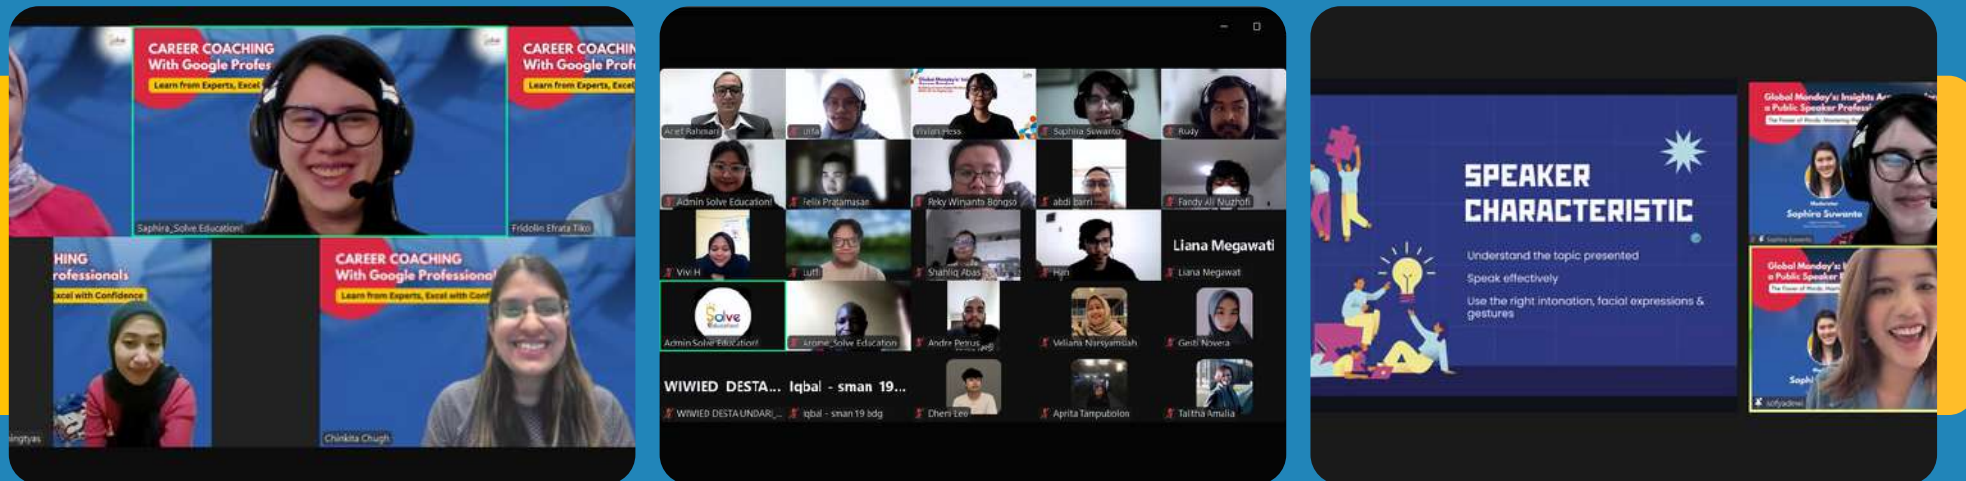

## Fun fact:

We visited 4 schools and 5 community and early learning centres to run fun English games for the program! Our weekly learning challenges also kept the young students excited to keep learning!

# Workshops

In 2024, we organised over 10 workshops in collaboration with leading institutions and major companies like Google, Lenovo, Amazon Web Services, and others. These workshops featured inspiring speakers who generously shared their experience and knowledge with our learners!

## Fun fact:

In addition to workshops, we also host International Student Forums and English practice sessions, helping our community members build confidence and connections through meaningful interactions!

# Road To Give

In 2024, Solve Education! was honoured to serve as a charity partner for The Road to Give by Four Points Bandung (part of the Marriott group hotels), a charity run that promotes fitness while empowering participants to support meaningful causes. With over 1,000 participants, The Road to Give 2024 event in Bandung was a great success! Solve Education! is proud to be a charity partner, receiving a portion of the funds raised to support our mission of providing free education across Indonesia.

## Fun fact:

Road To Give marked our first-ever participation in a charity run! Our COO, Talitha, personally participated in the run across Bandung, leading by example and showing her commitment to the cause.

# Rollout in Semarang City's Schools

Solve Education! is proud to continue expanding the impact of edbot.ai through our ongoing collaboration with the Education District of Semarang city (Indonesia). This year, we have provided access to edbot.ai for 199 junior high schools and 500 elementary schools across Semarang. With more than 10,000 learners benefiting from this initiative, we continued to deliver a fun and engaging way to learn English that sparks curiosity and builds confidence in Semarang city!

## Fun fact:

Teachers in Semarang are also using edbot.ai for their own English skill certification. Some schools even use edbot.ai as a reference for report card grades!

# Empowering Together through Collaboration

We are deeply grateful to the schools and organisations that partnered with us throughout this journey!

In 2024, our mission to empower people through education grew stronger through meaningful collaborations with schools and organisations across regions. Their dedication and support played a vital role in reaching more learners and communities.

# Thank you Teachers!

**Puan Zarifah**

Headmistress of SK Felda Jengka 3, Maran, Pahang

I am grateful that our school, SK Felda Jengka 3, had the opportunity to organize the edbot program Maran district level in an esports format, where we invited four nearby schools to participate. This program received an exceptional response, especially from students in the Felda community and rural areas.

Our goal was to foster a reading culture among students using a digital platform, and we are pleased to say that we have successfully achieved this. We hope this initiative can continue to benefit students in the future.

**Imam Lubisasono**

Principal of SMAN 19 Bandung

**Edbot.ai has brought a significant transformation in our students' literacy skills at school.**

Previously, many students lacked interest in reading or struggled to comprehend texts—especially those in English. But ever since we started using edbot.ai, everything began to change.

Edbot.ai makes it easier and more enjoyable for students to understand what they read. They can learn at their own pace, and the system provides questions and explanations that encourage deeper thinking. As a result, students have become more engaged and no longer get bored easily during reading sessions.

Teachers have also greatly benefited. They can monitor each student's literacy progress without having to check everything manually. The data from edbot.ai is clear and immediately useful for designing more effective learning strategies.

Edbot.ai has played a key role in strengthening and developing our school's literacy culture, especially in promoting Digital Literacy (LIDI 19).

We sincerely thank Solve Education! for building this meaningful partnership with SMAN 19 Bandung. We hope this collaboration continues to grow and contribute to improving the quality of education.

## Velia Vannisa

Head of Growth and Community Engagement

2024 was a roller coaster of a year, but one thing stayed constant, it's our passion to create real impact. I'm so proud of how our team came together to serve our community and empower our beneficiaries, even through the toughest moments. We didn't just meet our goals, we changed lives! We supported each other, kept our team spirit alive, and had a whole lot of fun doing it!

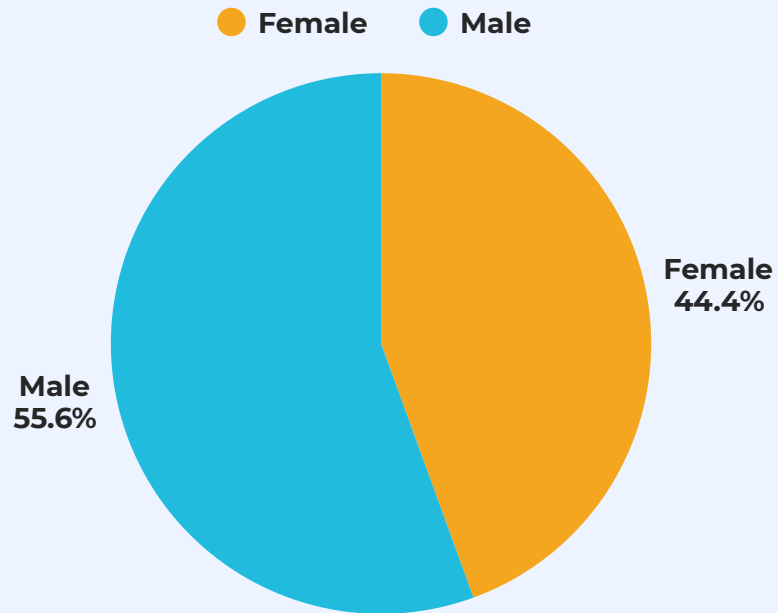

## Vivian Hess

Product Manager

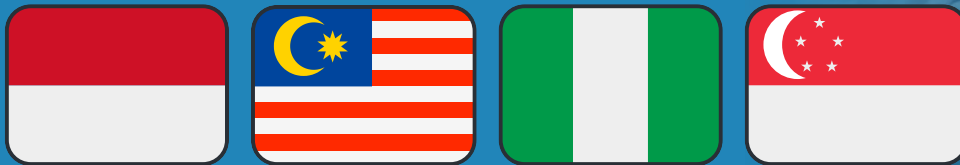

I spent a meaningful 2024 as a Product Manager at Solve Education!. The experience has deepened my skills in cross-functional collaboration, user-focused development, and impact-driven decision-making. Working in a mission-driven team taught me to lead with empathy and stay grounded in purpose. It's a year of real growth—both professionally and personally.

# Diversity Profile

## 4 Nationalities

# Intern highlights

**Rifadhilla Puti Zulfa**  
UI/UX Design Intern

During my internship at Solve Education, I was guided based on the goals I set from the start. My mentor generously shared all their knowledge and consistently expected tangible output after each lesson, believing in my growth. Back then, soft skills in UI/UX were my weakness—but unexpectedly, they became one of my strengths, something I now hold onto with confidence.

**Novi Enjer Handayani**  
Program Intern

The most memorable part of my time at Solve Education! was being trusted to lead meetings with people from diverse backgrounds for sponsorships. It really boosted my public speaking skills and confidence. At first, I was nervous about joining online meetings alone—worried I'd mess up. But in the end, I handled everything well and gained so much from the experience.

Solve Education! was selected as one of 12 global charity partners of the CompTIA Community.

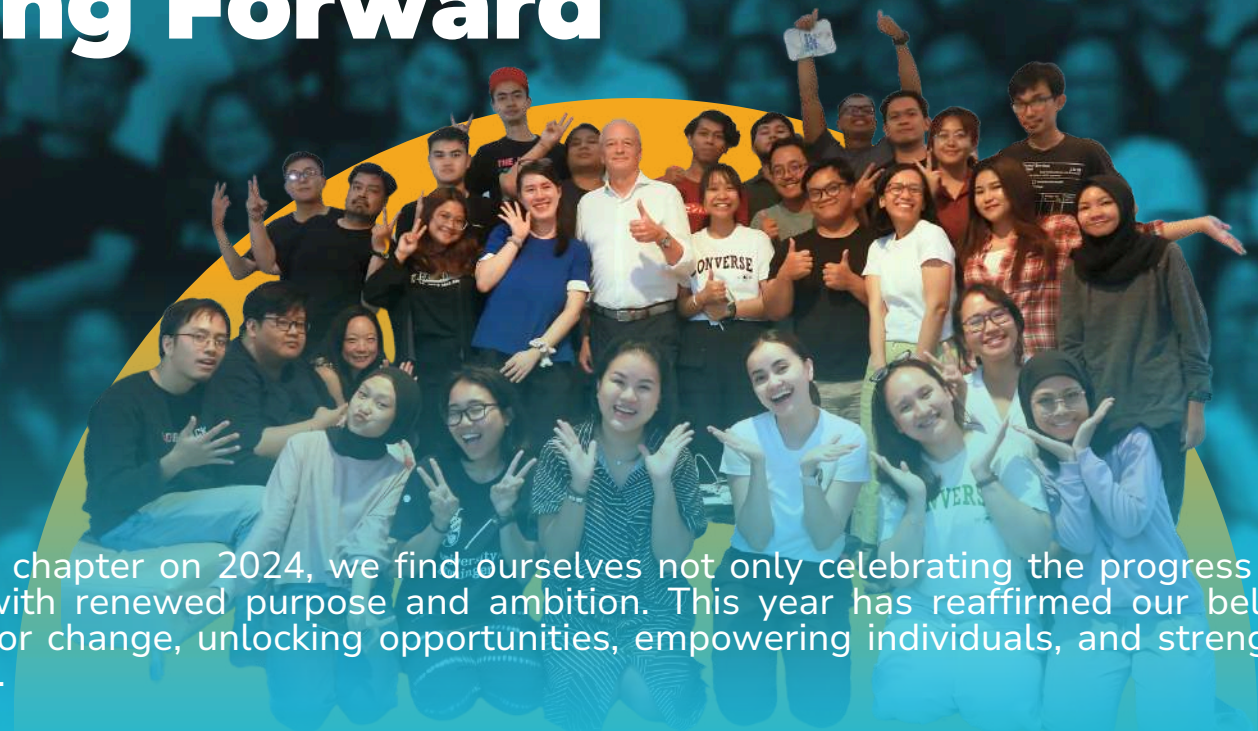

Talitha Amalia, COO of Solve Education!, shared insights with SATU University's students.

Met with Azura, founder of Primaly, in Malaysia.

# Looking Forward

As we close the chapter on 2024, we find ourselves not only celebrating the progress we've made but also looking ahead with renewed purpose and ambition. This year has reaffirmed our belief in education as a powerful force for change, unlocking opportunities, empowering individuals, and strengthening communities across the globe.

Throughout 2024, we've witnessed the impact of collaboration, innovation, and resilience. The partnerships we've nurtured and the milestones we've achieved remind us of what's possible when we work together toward a common goal. These moments fuel our drive to go even further, reaching more learners, forming new alliances, and launching bold initiatives that create lasting impact.

We recognise that challenges lie ahead, but we are stepping into the future with clarity, courage, and commitment. To our supporters, partners, and everyone who walks this path with us, thank you. Your trust and dedication continue to power our mission at Solve Education!

The horizon is full of promise, and we invite you to move forward with us. Let's keep pushing boundaries, breaking barriers, and building a world where education is truly accessible for all.

Together, let's shape a future where no dream is too distant, and every learner can thrive!
