## SEMARANG, INDONESIA

Pre and Post Learning with SE! Learning platforms

---

# About Solve Education!

Solve Education! Foundation is a philanthropic organization facilitating self-empowerment through education. With our mission embodying the spirit of development through accessible and practical learning, we help individuals who find traditional education systems lacking or inaccessible.

---

# Executive Summary

This report outlines the implementation and outcomes of our English learning program on our learning platform, in junior high schools in Semarang City from January to May 2023. This report aims to provide insight into the success of our English learning program which in turn serves as an important tool in evaluating and shaping our future endeavors.

## OBJECTIVES

---

1

To collate the experiences of teachers and/or school administrators in Semarang City before and after their engagement with SE! Learning platforms.

To measure the progression in English marks among students in Semarang City. We collected their scores before and after their engagement with SE! Learning platforms.

2

---

## METHODOLOGY

The research was conducted based on the survey response we gathered from teachers and/or school administrators across 33 junior high school in Semarang City and over 690 students' English exam scores pre- (first semester) and post- SE! Learning platforms (second semester).

## KEY FINDINGS

---

 Our English learning program demonstrates a significant impact in aiding students to enhance their English proficiency.

 According to survey results, teachers who utilized SE! Learning platforms assistance for English learning reported high satisfaction with their teaching and learning experiences in class.

# Program Introduction

Solve Education!, in collaboration with the Government and the Education Department of Semarang City, organized a few programs to enhance the quality of English education for junior high school students in Semarang City. With 110 participating schools, over 12,000 students took part in our learning program, which lasted from July to December 2022.

## Enhancing the Quality of English Education

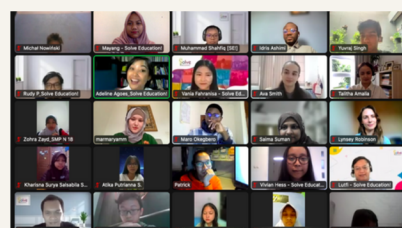

Solve Education! provides junior high schools in Semarang City access to its learning and analytics platforms, namely SE! Learning platforms and Learnalytics. With teachers' assistance, students took English language courses in SE! Learning platforms. Their learning progress was monitored through Learnalytics.

Teachers also participated in our “Guru Bahasa Inggris Teladan Melek Teknologi” competition, which incentivized them to support their students proactively throughout the learning process.

## Solvies: World Class Learners Club & Practice Your English with International Speakers

This program was designed to provide select students who successfully improved their English level in SE! Learning platforms with opportunities to practice their English speaking skills by interacting with experienced international speakers. 17 international speakers from 11 countries mentored students and conversed with them about various topics.

## Scholarships and Awards for Outstanding Students

This program serves as a catalyst to inspire students to continually engage in learning English through SE! Learning platforms and achieve a remarkable improvement level. Students with outstanding records of English learning improvement in our program were rewarded with prizes. This included being a Solve Education! English Literacy Ambassador and/or receiving a scholarship of IDR 2 million to assist them with their learning journey.

## Stakeholder Stories: Our Impact

In this digital age, SE! Learning platforms has been a game-changer, particularly for introducing students to foundational English. The program's innovative approach has not only enriched my teaching methodology but also elevated the quality of learning for my students. It's more than just a tool—it's a transformative experience for both educators and learners alike.

**Puji Lestari Triyatun — SMP Negeri 10 Semarang**

Using SE! Learning platforms has significantly enhanced my students' English fluency and vocabulary. It offers a unique and effective approach to English instruction in my classroom.

**Sri Mulyani - SMPN 5 Semarang**

“SE! Learning platforms program has significantly enhanced my teaching capabilities, while simultaneously offering my students a delightful and enriching learning experience.”

**Siti Choirum — SMP IT Bina Amal Semarang**

## SMPN 27 Semarang Students' English Test Scores

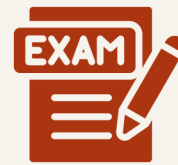

### Data Collection and Findings

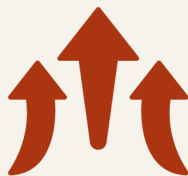

We collected scores from

**694**

junior high school students

We **compared** students' **first semester** (before learning with SE! Learning platforms) and **second semester** (after learning with SE! Learning platforms) **English test scores**

**69%**  
**of the students**

Demonstrated an improvement in their English test scores, with an average increase of **3 to 4%** from their **first semester results**

## CONCLUSION

From January to May 2023, our English program through SE! Learning platforms platform demonstrated remarkable success in junior high schools across Semarang City. The data collected from surveys and student performance metrics indicates strong positive feedback and engagement from both educators and students.

A significant 64% to 80% of educators and administrators reported enhanced collaboration, aligned objectives, a vibrant classroom environment, and effective technology integration, thereby enriching the learning experience. Most notably, students at SMPN 27 Semarang exhibited a notable 3 to 4% improvement in their English exam scores between semesters, with 69% benefiting from the program.

The positive feedback and tangible academic gains suggest that SE! Learning platforms program is scalable and primed for broader implementation. We are committed elevate educational quality and cultivate a richer learning environment in various educational sectors.
