**“We envision a world where everyone reaches their potential with education.”**

# A Message From the CEO

Dear Supporters, Partners, and Friends,

As we reflect on the milestones and impact achieved in 2023, I am filled with gratitude for the collective efforts that have brought us closer to our mission of making quality education accessible to all.

This year has been a testament to the resilience and adaptability of our organization and the communities we serve. In the face of global challenges, the unwavering commitment of our team and the support from our dedicated stakeholders have allowed us to continue driving positive change in the world through education.

## Impacts and Achievements:

Our initiatives have reached new heights crossing 600,000 active and touching the lives of individuals in underserved regions. Our Solvies community completed over 17 million lessons on our platforms (yes, we call our learners “Solvies”). Whether it's the expansion of our digital learning platforms, the successful implementation of community engagement programs, or the empowering stories of learners who have overcome barriers, each success fuels our determination to do more.

## Innovation and Collaboration:

In 2023, we embraced innovation as a driving force for change. Collaborative efforts with like-minded partners, the integration of cutting-edge technologies, and the continuous refinement of our programs have allowed us to stay at the forefront of educational solutions.

We worked with the Asian Venture Philanthropy Network (AVPN) and brought STEM education to girls in the region, with the support of Micron Foundation, Lenovo Foundation, XTX Markets, BHP, and Chevron. We partnered with Indonesia Stock Exchange, UBS, and Allianz to further our initiatives in financial literacy education. We continued to engage local governments, schools, teachers, NGOs, grassroots organizations, and our youth ambassadors to grow our learning community.

Together, we are finding new ways to break down barriers and create lasting impact.

## Challenges as Opportunities:

We acknowledge that our journey is not without challenges. However, at Solve Education!, challenges are viewed as opportunities to learn, adapt, and grow.

This has led us to further develop “Ed the Learning Bot” our chatbot teacher on Telegram, and we launched the web version of Ed on edbot.ai. This innovation has enabled learners to access their lessons without installing anything and can support learning on most devices out there. This is something that our learning communities welcomed warmly.

We have navigated uncertainties with resilience, turning obstacles into stepping stones towards a more inclusive and equitable education landscape.

A portrait of Janine Teo, the CEO, with long dark hair, wearing a blue top, smiling. The background is a soft gradient of blue and yellow.

**Janine Teo**

**CEO**

**Empowering the Next Generation:**

Our commitment to empowering the next generation of leaders, thinkers, and change-makers remains unwavering.

We do not only provide learning opportunities on our platforms; our youth ambassadors program provides soft skills training in a practical and experiential way to young people who bring the spirit of learning to their friends.

The stories of individuals whose lives have been transformed by education are a powerful reminder of the ripple effect our collective efforts can have on communities, and the world at large.

**Looking Forward:**

As we look ahead, our focus intensifies on scalability and sustainability. For us to create greater impact, we need to grow our revenues. We are looking to develop our business units on corporate services BPO, and corporate gifting.

We are exploring new avenues for collaboration, refining our strategies, and leveraging the latest advancements in technology to reach even more learners. We are also working on linking education to employment and other means of economic improvement for our Solvies.

Our vision is to create a lasting impact that transcends generations, fostering a world where education is a catalyst for positive change.

In closing, I extend my heartfelt gratitude to our supporters, partners, and the entire Solve Education! community. Your belief in the power of education propels us forward, and together, we will continue to shape a brighter future for all.

Thank you for being a part of our journey.

**Warm regards,**

**Janine Teo**  
**CEO**

# Who We Are

Solve Education! Foundation is a philanthropic organization committed to enabling people to empower themselves through education.

As one of the founding members of Solve Education!, witnessing its remarkable growth and impact over the years fills me with immense pride and a deep sense of fulfilment. From our humble beginnings, driven by a shared vision to empower youth with education, it's incredibly gratifying to see how our initial ideas, a unique blend of educational content, accessible technology, and a community-centred approach, have transformed into tangible solutions that empower learners, especially those in underprivileged circumstances.

**-Talitha Amalia | Director of Operations**

# What We Do

## Learning program

We offer dynamic, free learning programs designed to captivate and educate learners globally through engaging, interactive experiences. Our innovative approach combines fun with practical knowledge application, preparing them for real-world challenges by encouraging them to think critically and apply their learning in everyday scenarios. With a commitment to accessibility and global reach, our programs are tailored to break down educational barriers and empower learners from all backgrounds with the skills and knowledge needed for success in the modern world.

## Learning Support

We believe in not just educating but also empowering our learners, which is why we offer financial support and incentives to selected learners. This initiative is designed to enhance learning motivation and instill discipline, recognizing and rewarding the hard work and achievements of our students. By providing these financial incentives, we aim to remove barriers to education, encourage continuous engagement, and foster an environment where learners are motivated to achieve their full potential. Our commitment to supporting students financially underlines our dedication to making education accessible and rewarding for all, ensuring that every student has the opportunity to succeed and thrive in their educational journey.

## Teaching Support

We are committed to empowering teachers in promoting education and digital literacy. We provide awards and grants to encourage teachers to stay up-to-date with the rapid developments in technology and its applications, and to incorporate these effectively into their teaching practices. The grants have proven effective in facilitating classroom management and fostering creativity in teaching methodologies.

# Our Technology

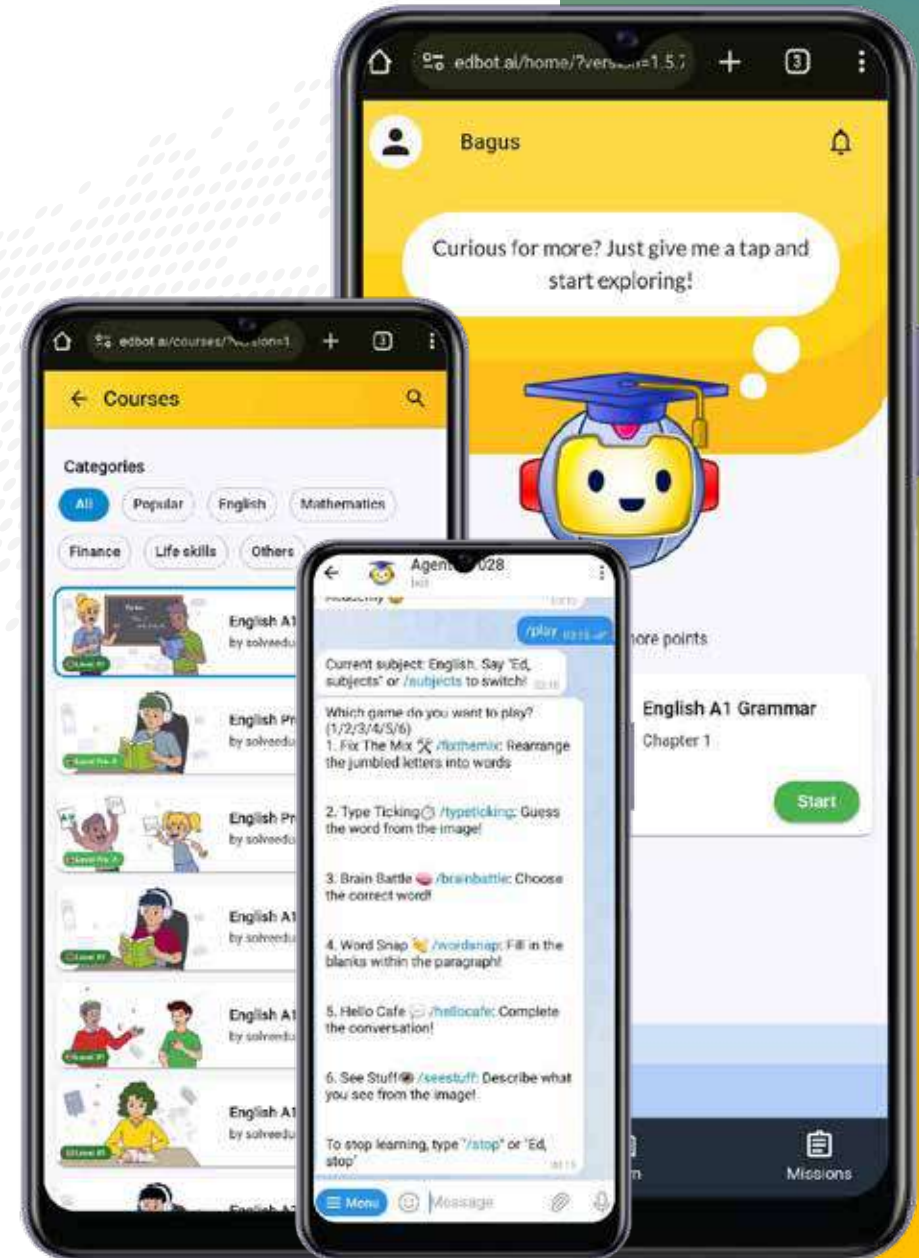

## Ed the Learning Bot

Ed the Learning Bot (Ed) is an AI-powered chatbot that offers personalized learning through text-based interactions. With Ed, our beneficiaries can enroll in various courses, such as English, Math, financial literacy, employability skills, and more. The platform is designed to provide an engaging learning experience, similar to learning with a teacher.

I really like edbot.ai. I can learn a lot and expand my knowledge about things I didn't grasp in school. It's so much fun; it's like playing a game because I earn points every time I finish a lesson. Especially in the English-speaking lessons, they can detect my voice, so I learn the right pronunciation. Thank you, Solve Education, for creating edbot.ai.

**-Putri Asla | SMAN 14 Jakarta**

# Integrated Learning and Monitoring System

Educate

Monitor

Reward

Ed the Learning Bot

Learners learn on our learning platform anytime, anywhere

Learnalytics

Monitor learning progress regularly

Reward program for learners through different incentive schemes to foster a lifelong learning

# Those Who Benefited from Our Programs

I see the children are very enthusiastic and enjoy learning with this game, and they have even shown significant progress and success in their respective schools. It is very noticeable that they can answer English language questions better than their peers. I hope this program continues until next year because its benefits are significant and very good for the future preparation of our children.

**- Ms. Hermina | Indonesia**

The students enjoy learning and playing with Solve Education! Learning platform so much. I have utilized SE! Learning platform to facilitate my student's learning since 2021 and introduced it as an innovative teaching method. Because of this, I won 2nd place (runner up) for the best practice teacher in Surin Primary School Educational Service Area Office 1. Thank you Solve Education!

**- Teacher Som | Thailand**

I was a quiet student and never thought I could be a leader for a second. But everything changed when I met Solve Education. The SE! learning platform has improved my ability through practical learning. Now, I can proudly say that I've led many students on a transformative educational journey, giving them access to educational opportunities that have empowered them to take more risks for the better of their future here at the Federal University of Kashere in Gombe State, Nigeria

**-Manason Mathias | Nigeria**

# Ambassadors: Building Their Learning Community

Azhar, a student with a determination that impresses us, has ambitious aspirations not just for himself but also for his fellow Solvies and peers. Due to his ambition, he had the opportunity to become a Solve Education! Ambassador. He has successfully built a learning community with more than 8,000 members to learn with Ed The Learning Bot.

During my time as an ambassador for Solve Education, I have experienced an extraordinary journey contributing to improving access to education. Through active participation, I can share knowledge, motivate individuals, and help overcome educational barriers in various communities. This opportunity has given me a chance to be part of the global solution in supporting learning for all.

**-Azharuddin Al Ansyari | MAN 2 Makassar**

Andre stands out as one of our earliest ambassadors at Solve Education! Throughout 2023, he founded his learning community, attracting numerous members. Remarkably, he has successfully invited over 3,000 individuals to engage in learning alongside Ed the Learning Bot. Under Andre's guidance, the members of this community have benefited, receiving many educational grants from Solve Education!.

I am grateful because, with Solve Education, I can assist other students and engage in social activities using a portion of the proceeds I earn as a commitment to actively make a positive impact on others.

**-Andre Eka Saputra | Universitas Jember**

# Changing Lives, One Lesson at A Time

## **Danial's Triumph in Malaysia: Overcoming Dyslexia Through Digital Learning**

Danial, a 14-year-old dyslexic student faced challenges in learning due to the lack of special classes and expert teachers at his school. The introduction of SE!'s English program, a digital gamification tool designed to enhance English language skills, brought about a significant change in Danial. He became more enthusiastic and cheerful in class, started making more friends, and began conversing in English. Now, Danial has successfully caught up with his peers in class, demonstrating the effectiveness of digital technology for special needs students.

## **Tesa's determination: Enabling personal growth among girls in Indonesia**

Tesa is a 13-year-old learner from SOS Children's Village Maumere, Flores, Indonesia. She has shown remarkable dedication to learning English through the Solve Education platform. Initially hesitant, Tesa's perseverance led her to develop a newfound interest in the language. SE! has been a catalyst for her personal growth, transforming her from a timid learner into a courageous individual. She recounts how the platform has brought her closer to her dreams, even if it's just one small step at a time. She firmly believes that with continued dedication, she will achieve her goal of speaking English well. She received a reward from SE! which she used to continue with her passion for Taekwondo. Tesa's story is a testament to the power of determination and the impact of inclusive education.

# Indonesia

In 2023, we focused on empowering young people to lead learning groups, making a significant difference. They established their own learning communities, ensuring everyone could learn English. We supported them with education grants and workshops on practical skills, thanks to our collaborative efforts. Our work reached some of the remote areas in Indonesia. Beyond online initiatives, we conducted vital in-person activities on money management, job skills, and English, with support from our donors' volunteers. In partnership with the Indonesia Stock Exchange, we also launched the innovative "Introduction to the Capital Market Part 1" course, building on our "Basic Financial Literacy" course. Reflecting on 2023, our efforts have transformed lives and significantly strengthened our mission.

The excitement of learning with Solve Education is INCREDIBLE!! I'd rate it 10000/10. It has expanded my perspective and knowledge immensely; I've gained a lot of valuable insights. The platform offers a wide range of learning subjects, so it never gets boring. In essence, learning with Ed significantly broadens horizons and is undeniably beneficial.

**-Riska | Ngaglik, Yogyakarta**

# Malaysia

In Malaysia, we strengthen partnerships with the Pahang State Education Office and also the Department of Education offices in Hulu Langat and Pekan. Collaborating with over 130 schools, we have witnessed remarkable success and notable improvements among students. Upholding dedication to inclusivity, our impact extends to more indigenous students this year. Additionally, our Monthly English-speaking workshops engage volunteers globally in meaningful conversations with Malaysian students, underscoring our belief in education's transformative power and our ongoing efforts to foster a supportive, inclusive learning environment across Malaysia's diverse landscape.

I want to thank Solve Education! because a lot of students come to the schools because of the learning program. Our students are excited to play and learn with their friends. And it increase our student attendance rate today. I wish SE! program can continue for my school next year!

**-Ms. Zarifah binti Abdul Karim | Headmaster from SK Felda Jenka 3, Jerantut, Pahang, Malaysia**

# Singapore

In 2023, Solve Education! continued its commitment to empowering underprivileged young children in Singapore by elevating their English proficiency. Building on the successes of the previous year, we introduced the transformative "Ready, Set, Learn Challenge" together with Yayasan Mendaki. This initiative aimed to further transform the educational experience for our beneficiaries, making it not only engaging and enjoyable, but also significantly improving their language skills. This not only exemplified our goal of excellence in education but also demonstrated the positive outcomes that can be achieved through collaboration with like-minded organizations.

My children learned many new words and enjoyed playing the mini-games. It was fun and informative. Thank you very much.

**-Yayasan Mendaki' s Family**

# Thailand

In Thailand, we extended our efforts to enhancing literacy skills and empowering students through collaborative efforts with schools nationwide. Our tailored learning program, with its engaging approach, motivates learners and fosters empowerment.

We continued our reward system, encouraging the active pursuit of academic goals with enthusiasm. As we reflect on the year, our organization remains dedicated to refining and expanding initiatives, adapting to the evolving educational landscape, and equipping Solvies for success on their educational journey.

I enjoy the learning program by Solve Education. It allows us to practice our English while having fun and playing with friends. So, we can all play the game and learn together.

**-Oranich Ah-Yi | Student at Dhammajarinnee Witthaya School**

# India

In 2023, we continued our mission in India, focusing on empowering underprivileged youth, through joint initiatives with local partners. The drive to provide quality education and enhance the progress of our beneficiaries remains resolute. Despite various challenges, our dedication to empowering more young people across India was unwavering, as we worked towards creating a brighter and more promising future for all. The year 2023 marks yet another chapter in our journey to make a positive and lasting impact on the lives of those who need it most.

It's really good for encouraging students in maths and the most important thing is that all this competition is done without charging a single penny. It encourages students who can't afford to pay. Learning with Ed the Learning Bot is unmatched. I thank Solve Education for providing a wonderful platform to showcase my skills.

**-Lukalapu Mounika | India**

# Nigeria

In 2023, Solve Education! achieved significant community growth in Northern Nigeria by expanding operations to several key educational institutions. This expansion marked a strategic effort to enhance educational opportunities and community development. Building on the success of 2022, our organization continued to engage youths through learning competitions, utilizing the learning bot to foster essential soft skills. This focus on skill-building not only prepares them for successful careers but also sets the foundation for a lifetime of success.

Today, I can confidently say that Solve Education has helped me unleash my leadership potential, prepared me for the future of work, and helped me gain relevance in my department. I am grateful to Solve Education and would strongly recommend the learning platform to everyone.

**-Joel Akpali | Nigeria**

## Other Countries

Solve Education! not only sustained its work in Hong Kong but also strove to transform lives in the Philippines, Sri Lanka, and several other countries. This expansion during what some would describe as difficult times demonstrates our commitment to empowering people through education across diverse regions. Our organization remained focused on building an open platform that unlocks access to effective education for all. With each stride, we reinforce our mission one learner at a time across the enchanting landscapes of the Asia Pacific region and beyond.

# Upcoming Projects

## NextGen Solvers

We are excited to announce the completion of our latest project; the adaptation of 'Learning How to Learn for Youth,' in Bahasa Indonesia, Belajar Cara Belajar. This initiative represents our ongoing commitment to provide accessible and high-quality educational resources.

As part of the 'NextGen Solvers' brand, this video series is crafted to empower our learners with effective learning strategies, shaping them into the next generation of solvers! Stay tuned for the official launch of our 'Belajar Cara Belajar' video series on Solve Education! YouTube Channel (Solve Media).

Each week, new episodes will be uploaded, providing learners with a consistent and engaging learning experience. These videos will also be seamlessly integrated with Learning How to Learn courses on edbot.ai, allowing learners to learn effectively.

Join us on this journey of discovery and empowerment by subscribing to our Solve Media YouTube Channel, as we revolutionize the way education is accessed and experienced.

# Upcoming Projects

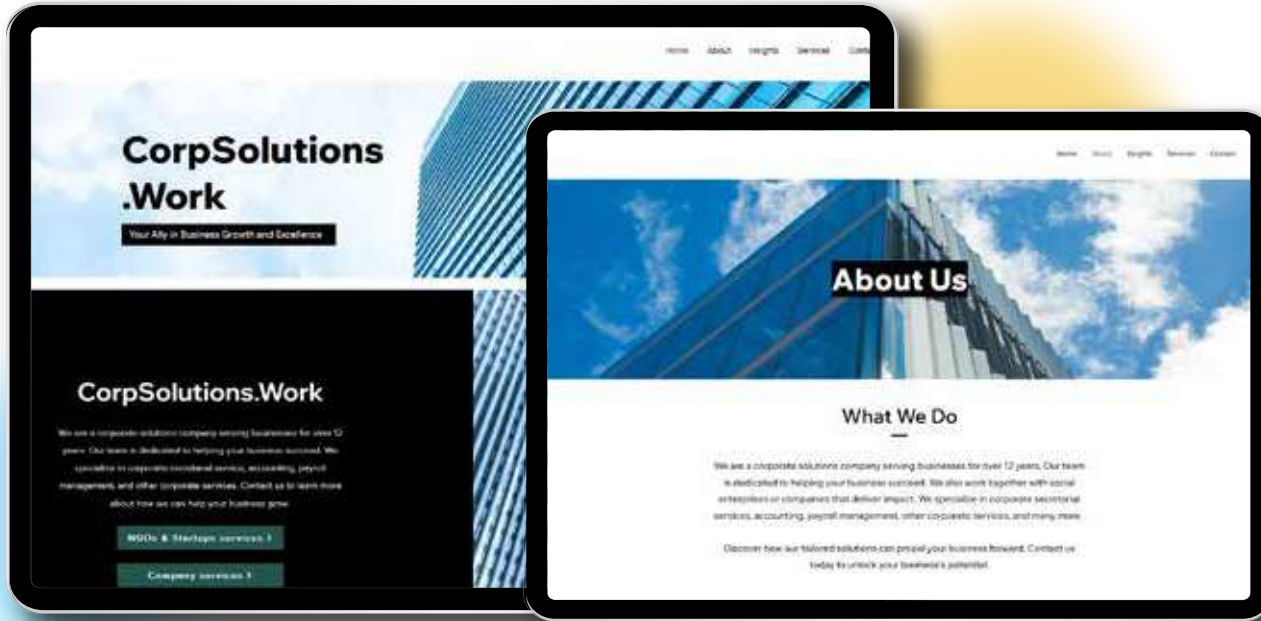

## Solve Impact Gifts

As we begin our journey in 2024, we are proud to introduce our innovative social enterprise platform, "Solve Impact Gifts". This initiative offers individuals the opportunity to drive meaningful change in local communities by creating purposeful goods and gifts tailored to corporate needs. We aim to amplify the often unheard voices of these communities by collaborating with our learners, providing them with a platform to express themselves.

Each purchase from "Solve Impact Gifts" represents a significant investment in the education of local communities, particularly the youth, fostering a powerful cycle of empowerment. This division reflects our desire to involve our supporters and learners as key players in advancing Solve Education's projects. Our efforts are grounded in sustainability, aiming for long-lasting positive changes that contribute to a sustainable future for the communities we support. "Solve Impact Gifts" serves as a conduit, linking our supporters' passion with the transformative power of education, creating a durable legacy of positive impact.

# Upcoming Projects

## CorpSolutions.Work

CorpSolutions.Work is a corporate solutions company under Solve Education!'s business unit that serves various companies, as well as social enterprises to drive impactful outcomes. CorpSolutions.Work provides a comprehensive suite of corporate services, including corporate secretarial services, accounting, payroll management, and more, each tailored to meet the unique needs of our clients.

Visit our website at CorpSolutions.Work to discover the full range of our innovative solutions!

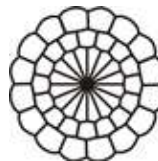

I am immensely proud to have been a part of the remarkable growth that Solve Education! experienced in 2023. Despite numerous challenges, we have grown and evolved as a team, remaining steadfast in our mission to empower individuals through education. It has been an honor to witness each team member's contributions, their innovative program designs, and their tireless execution to realize our mission. We are delighted as we watch our community of learners grow. These learners, often from less privileged backgrounds, are provided with quality educational opportunities, and we are privileged to be a part of their journey towards improved livelihoods.

**-Muhammad Lutfi | Head of Program**

# Key Collaboration Partners

Collaboration has been a critical factor in the success of Solve Education!'s programs and remains a necessary foundation for our ongoing work. Our collaborators and partners come from diverse backgrounds, including learners, teachers, facilitators, local NGOs, and communities, as well as researchers and educational institutions. We firmly believe that by working together, we can make education accessible and enjoyable for all. We welcome and value collaboration with anyone who shares our passion for this cause, and we remain committed to fostering strong partnerships that enable us to achieve our goals and create a brighter future for all learners.

I am incredibly proud of our achievements this year. We've empowered countless youth globally to enhance their skills through our innovative technology, led by Ed the Learning Bot. My heartfelt gratitude goes to my dedicated team and all involved in this remarkable project. Looking ahead, we're committed to further improving our product to provide quality education to even more people.

**-Tri Samsul | Technical Team Lead in Software Engineering**

# Intern Highlights

My internship with Solve Education! is a fulfilling learning experience for me! Throughout my internship, I had the opportunity to work on multiple projects which helped me gain a deeper understanding of user experience design and improve my technical design skills. I value my time working with my supervisor, who gave me a lot of insight into the UX field and facilitated good discussions on design projects! My working experience with SE! prepares me well for the next chapter of further developing my career pathway in design!

**-Jamiez Vo**

Solve Education! is a place where I can explore myself, they let us to involved as much as we can. The fun thing is, that you can try any fields outside your department. Good idea to start your career journey or if you want a true work experience!

**-Tissa Amalia Damayanti**

It's a really good opportunity to grow and develop one's self. I enjoy people's culture during general meetings and I'd recommend it to friends and family.

# Looking Ahead

As we wrap up our 2023 Annual Report, we are standing at a crossroads of what we have achieved and what we dream to do, excited for all the opportunities ahead. This year has shown us how powerful education can be in changing lives in different communities, making us believe even more in its power to transform.

Looking back at our achievements and the strong partnerships we've built, we are more excited than ever for what's next. We believe education is the key to a brighter, fairer future, and we are eager to expand our work, start new partnerships, and launch projects that will lift up communities.

We know there will be challenges, but we are ready to face them with determination. As we move forward, we are thankful for our supporters, partners, and everyone who helps make Solve Education!'s mission come alive. Together, we'll keep working to spread knowledge, opportunities, and empowerment, aiming for a better world.

The future is wide open, and we invite you to come with us on this exciting journey. Let's work towards a future where education knows no limits, and every learner can reach for the stars.
